Special Issue

Biochar-Based Materials for the Removal of Organic Pollutants

Message from the Guest Editors

We propose this Special Issue on “Biochar-Based Materials for the Removal of Organic Pollutants” to provide a platform to gather innovative works focusing on the latest novel biochar-based materials for organic pollutant removal. These topics include, but are not limited to, the following:

- High-performance remediation of organic pollutants in water, soils, and air based on biochar materials;
- Transformation and fate of organic pollutants on biochars;
- Continuous interactions/processes with biochars and their stability in long-term environmental applications;
- Novel fabrication, modification, and functionalization of biochars for organic pollutant removal;
- Design of efficient, sustainable, and novel systems based on biochars for organic pollutant removal in the environment;
- Environmental impacts and economic sustainability of biochars during green and sustainable remediation.

Guest Editors

Dr. Delai Zhong

Key Laboratory of the Three Gorges Reservoir Region's Eco-environment, Ministry of Education, College of Environment and Ecology, Chongqing University, Chongqing 400044, China

Dr. Zhonghao Wan

Department of Chemical and Environmental Engineering, Yale University, New Haven, CT 06520, USA

Deadline for manuscript submissions

31 August 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
