

## Special Issue

# Synthesis, Characterization, and Application of Sustainable Plastic Materials

### Message from the Guest Editor

The aim of this Special Issue is to provide a global vision of the state of the art and recent research progress in the field of new sustainable polymeric materials. Research topics include, but are not limited to, the following:

- Developing new methods for recycling and reusing used plastic.
- Recent progress on the synthesis and characterization of biodegradable polymers deriving from renewable sources.
- Designing new sustainable polymeric materials.
- Applications of new sustainable polymeric materials.

### Guest Editor

Dr. Stefania Pragliola

Department of Chemistry, University of Salerno, Via Giovanni Paolo II, Fisciano, 84084 Salerno, Italy

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
