Special Issue

Selected Papers from the XXIV Brazilian Congress of Chemical Engineering (COBEQ 2023)

Message from the Guest Editors

This Special Issue of *Processes* will present selected papers from the XXIV Brazilian Congress of Chemical Engineering (COBEQ 2023) that will take place in Salvador, Bahia State, between 1 and 4 October 2023.

The Brazilian Congress of Chemical Engineering (COBEQ) is the most important national event in the realm of chemical engineering area. It encompasses an extensive knowledge area of chemical engineering and related areas. COBEQ also offers an excellent opportunity for the chemical engineering community to exchange ideas and update scientific information in different areas.

The COBEQ's central theme in 2023 is the energy transition and current challenges to its completion. In addition to the central theme, topics related to environmental and clean technologies; biotechnology and food; new materials and nanotechnologies; chemical reactions and catalysis; transport phenomena and particulate systems; separation engineering and thermodynamics; process system engineering; oil, gas and biofuels; and chemical engineering education will be discussed there.

Guest Editors

Prof. Dr. Fernando Pessoa

Prof. Dr. Karen Valverde Pontes

Prof. Dr. Márcio A. F. Martins

Prof. Dr. Elaine Christine de Magalhães Cabral Albuquerque

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
