

Special Issue

Deep Eutectic Solvents: Green Solvents of the Future

Message from the Guest Editors

This Special Issue on “Deep Eutectic Solvents: Green Solvents of the Future” aims to cover recent advances in research, development, and application of deep eutectic solvents. Topics include, but are not limited to, methods and/or application in the following areas:

- DESs as tailor-made solvents for processes (e.g., gas separation, LL extraction and metal extraction);
- Experimentally obtained data for various applications;
- Techno-economic studies of processes using DESs;
- Molecular dynamic simulations studies for theoretical understanding of DESs’ interaction nature.

Guest Editors

Dr. Lawien Zubeir

Sustainable Process and Energy Systems, TNO (The Netherlands Organisation for Applied Scientific Research), 2628 CA Delft, The Netherlands

Prof. Dr. Fausto Gallucci

Inorganic Membranes and Membrane Reactors, Sustainable Process Engineering, Department of Chemical Engineering and Chemistry, Eindhoven University of Technology, 5612 AZ Eindhoven, The Netherlands

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
