

## Special Issue

# Advanced Thin Films for Antioxidant Food Packaging and Preservation

### Message from the Guest Editor

The current Special Issue focuses on research with food packaging materials incorporated with active antioxidant components. These active food packaging materials are used to prolong the shelf life of many types of food. This Special Issue welcomes contributions such as reviews, short communications, and research articles that delve into the strategic development of antioxidant-based materials and technologies for both food packaging and preservation. We particularly welcome research focusing on natural antioxidants, coatings, films, and other applications for preserving the nutritional quality of food susceptible to the oxidative process. We hope this initiative will help in creating innovative antioxidant materials and associated technologies. We aim to unlock new avenues for scientific inquiry and facilitate their successful commercialization, contributing to consistent improvements in food safety and quality to benefit both human well-being and planetary health.

### Guest Editor

Prof. Dr. Meritaine Da Rocha

Laboratory of Microbiology, School of Chemistry and Food, Federal University of Rio Grande (FURG), Santo Antônio da Patrulha 95500-000, RS, Brazil

### Deadline for manuscript submissions

31 March 2026

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
