Advances in Industrial Biotechnology: Bioprocess and Bioseparation

Message from the Guest Editors

Biotechnology refers especially to the exploitation of biological processes that are applicable to various industrial sectors and involved in fields such as genetic engineering, protein engineering, metabolic engineering, biochemical engineering, and bioprocesses. Contributions to this Special Issue should cover trends and advances in industrial biotechnology, including the area of bioprocesses and bioseparation. We welcome high-quality research articles, communications, and review articles emphasizing the broad scope of the topic.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
