

## Special Issue

# Environmental Protection by Aerobic Granular Sludge Process

### Message from the Guest Editor

This Special Issue is in memory of Prof Joo Hwa Tay for his significant contribution to the advancement of aerobic granule technology! This Special Issue on “Environmental Protection by Aerobic Granular Sludge Process” aims to discuss novel advances in the development and study of process control, optimization, and scaling up for the AGSP. Topics include, but are not limited to:

- Strategies for a fast and stable granulation process
- Strategies to maintain granule stability and identification of key parameters
- Strategies for stable nutrient removal and resource recovery
- Process optimization for the removal of challenging pollutants with the AGSP
- Process scaling up
- Process modeling

---

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
