The Role of Biochar in Soil Remediation Processes

Message from the Guest Editor

This Special Issue on “The Role of Biochar in Soil Remediation Processes” seeks high-quality research and case studies focusing on the remediation efficiency and interaction mechanisms of biochars in polluted soils. Topics include, but are not limited to the following:

- Removal of contamination and sustainable approaches to remediation
- Remediation processes and technologies by biochar application
- Novel methods of characterization, treatment, and monitoring

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
