

## Special Issue

# Biodiesel Production Processes and Technology

### Message from the Guest Editors

This Special Issue on “Biodiesel Production Processes and Technology” aims to present high-quality research studies on biodiesel production and new technologies. Topics include, but are not limited to:

- Biodiesel purification
- Esterification/tranesterification processes through homogeneous and heterogeneous catalysis
- Catalytic hydrogenation of oils for biodiesel production
- Third generation resources for biodiesel production
- Biodiesel production technology
- Biodiesel production under supercritical conditions
- Biodiesel and environment

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
