

Special Issue

Biomass to Renewable Energy Processes

Message from the Guest Editors

The main objective of this Special Issue will be to analyze the evolution over time of the growing interest and trends in the field of biomass for renewable energy and biorefinery to help the research community to understand the current situation and future trends. Efforts will be made to provide basic information to facilitate decision-making by those responsible for scientific policy.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
