Studies on Characteristics, Influences, and Control Strategies of Biomass Burning Emissions

Message from the Guest Editor

This Special Issue on “Studies on Characteristics, Influences, and Control Strategies of Biomass Burning Emissions” seeks high-quality works focusing on the latest scientific research and control technologies for characteristics of biomass emissions and pollution control. Topics include, but are not limited to:

- Chemical properties of biomass burning emissions;
- Health effects of chemicals emitted from biomass burning;
- Impacts of biomass emissions on climate change;
- Emission inventories of chemicals emitted from biomass burning.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
