

Special Issue

Bioreactor System: Design, Modeling and Continuous Production Process

Message from the Guest Editors

The Special Issue, “Bioreactor System: Design, Modeling and Continuous Production Process”, will address experimental/theoretical research and latest progress in the field of bioreactor systems. Bioreactors play an important role in many industries, including fermentation, food, pharmaceuticals, and wastewater treatment. Bioreactor is the heart of any biochemical process in which enzymes, microbial, mammalian, or plant cell systems are used for the manufacture of a wide range of useful biological products. The objective of this issue is to showcase the diversity and advances in research that contributes to developing effective systems for the microorganism culture and biochemical production. Original papers are solicited on experimental/theoretical studies on bioreactor systems. We are particularly interested in receiving manuscripts that integrate biology and engineering research and/or experimental and theoretical studies. We invite researchers from all areas of bioengineering to submit manuscripts for this important Special Issue of *Processes*.

Guest Editors

Dr. Francesca Raganati

Dipartimento di Ingegneria Chimica, dei Materiali e della Produzione Industriale, Università degli Studi di Napoli Federico II, Piazzale Tecchio 80, 80125 Napoli, Italy

Dr. Alessandra Procentese

Department of Industrial Engineering, University of Salerno, Via Giovanni Paolo II, 132, 84084 Fisciano, SA, Italy

Deadline for manuscript submissions

closed (31 July 2021)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
