

## Special Issue

# Analysis, Control and Management Processes of Salt-Affected Environments

### Message from the Guest Editors

Topics include, but are not limited to:

- Chemical and biological diversity of salt-affected environments and/or their possible use in industrial and environmental biotechnology;
- Technological and/or management strategies to improve or solve environmental and social issues related to the salinization of soils, waters, and groundwaters.

This Special Issue calls for contributions across a broad range of areas to provide a comprehensive overview of these aspects. In this context, we welcome the submission of high-quality articles and reviews authored by basic or applied scientists, addressing the aforementioned topics.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
