

Special Issue

The Development and Application of Food Chemistry Technology

Message from the Guest Editor

This Special Issue “The Development and Application of Food Chemistry Technology” will present innovation in the food industry and in food technology by providing research on food processing and the steps of food traceability, including primary and secondary processing, manufacturing, and distribution. In this Special Issue, review papers and research in the field of development and application of new innovative food production technologies are expected to prioritize the nutritional needs of consumers, on the one hand, and meet food safety guidelines and prevent food production waste, on the other hand. Food chemistry technology topics include the development and application of methods in the following areas:

- Food composition analysis;
- Novel technology approach;
- Development of new analytical methods;
- Food safety determination.

We hope that you will consider participating in this Special Issue.

Guest Editor

Dr. Marina Krpan

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
