

Special Issue

CFD Based Researches and Applications for Fluid Machinery and Fluid Device, Volume II

Message from the Guest Editors

This Special Issue on “CFD-Based Research and Applications for Fluid Machinery and Fluid Devices” aims to present recent novel research trends based on advanced CFD and experimental techniques for fluid machinery and fluid devices. The following topics, among others, are included in this issue:

- CFD and experimental techniques and applications in fluid machinery and fluid devices;
- Unsteady and transient phenomena in fluid machinery and fluid devices;
- Pumps, fans, compressors, hydraulic turbines, pump turbines, valves, etc.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
