

## Special Issue

# Innovation in Chemical Plant Design

### Message from the Guest Editors

The aim of this Special Issue of Processes on “Innovation in Chemical Plant Design” is to highlight recent innovation in chemical engineering process design, to point out trends and perspectives. Research works about process intensification, alternative and clean energy systems, sustainable production processes, process optimization, novel nanotechnology and nanomaterials, innovation in food production and product for agriculture, novel pharmaceuticals, and innovative materials for buildings are welcome.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
