# Advanced Combustion and Combustion Diagnostic Techniques

### Message from the Guest Editor

This Special Issue on “Advanced Combustion and Combustion Diagnostic Techniques” aims to organize advanced combustion and combustion diagnostic techniques to address the challenge of the energy and combustion field. Topics include but are not limited to:

- New advanced combustion techniques;
- Combustion characteristics of new types of fuels;
- Combustion characteristics under extreme conditions;
- Combustion emission treatment and abatement;
- New techniques for combustion diagnostic including flow velocity, species and temperature measurement, etc.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
