

Special Issue

Control System Design for Laser Additive Manufacturing Process

Message from the Guest Editor

This Special Issue of "Control System Design for Laser Additive Manufacturing Process" seeks high quality work, focusing on the latest advances in manufacturing processes and systems, while the classification, techniques and applications of additive manufacturing are also of research interest. Topics include but are not limited to:

- Novel technology in manufacturing processes;
- Material processing;
- 3D printing;
- Sustainable manufacturing in industry;
- Manufacturing automation;
- Precision manufacturing and control;
- Micro–nano–manufacturing;
- Green manufacturing;
- Mechatronics and robotics

Guest Editor

Dr. Elham Mirkoohi

Department of Mechanical Engineering, Auburn University, Auburn, AL 36849, USA

Deadline for manuscript submissions

closed (30 November 2022)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
