

## Special Issue

# Data-Driven Modeling, Control and Optimization of Complex Industrial Processes

### Message from the Guest Editors

The main focus of this Special Issue is new theories and their applications in data-based modeling, control, and optimization for complex industrial processes, especially in industrial applications. Topics include, but not are limited to:

- Advanced data-driven simulation and modeling methods for complex industrial systems and processes;
- Data-driven control theory, approaches, and applications;
- Data-driven fault diagnosis, health maintenance, and performance evaluation;
- Data-driven modeling, optimization, scheduling, decision making, and simulation;
- Intelligent transport systems and electric vehicles;
- Statistical learning, machine learning, data mining, and practical applications in the automation field.

### Guest Editors

Prof. Dr. Rey-Chue Hwang

Department of Electrical Engineering, I-Shou University, Kaohsiung 84001, Taiwan

Prof. Dr. Huixin Tian

School of Control Science and Engineering, Tiangong University, Tianjin 300387, China

### Deadline for manuscript submissions

closed (20 December 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
