

Special Issue

Drug Carriers Production Processes for Innovative Human Applications

Message from the Guest Editor

In this Special Issue, we welcome the presentation of novel methodologies for the production of drug carriers, as well as new potential findings regarding the physics of the problem. Moreover, the innovation of products provided by conventional methods as well as innovative processes and on products are also going to be taken under great consideration. Finally, the economic analysis of the process of productive plants is also an aim of this Special Issue, as well as the processes' environmental impact.

Guest Editor

Dr. Paolo Trucillo

Department of Chemical, Material and Industrial Production Engineering, University of Naples Federico II, Piazzale V. Tecchio, 80-80125 Napoli, Italy

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
