

## Special Issue

# Development and Characterization of Advanced Polymer Nanocomposites

### Message from the Guest Editors

Topics of interest for this Special Issue include, but are not limited to, the following:

- Synthesis and characterization of advanced polymer nanocomposites;
- Development of hybrid nanocomposites;
- Growth, properties, and applications of bionanocomposites;
- Theoretical and experimental research, knowledge, and new ideas in polymer nanocomposites;
- Green polymer nanocomposites with environmental sustainability;
- Additive manufacturing of polymer nanocomposites based on 3D or 4D printing;
- Manufacturing polymer nanocomposites using advanced technologies;
- Multifunctional properties and commercial applications of advanced polymer nanocomposites.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
