

Special Issue

Extraction Optimization Processes of Antioxidants

Message from the Guest Editors

This Special Issue on “Extraction Optimization Processes of Antioxidants” aims to curate novel advances in the development and application of sustainable extraction methods also to address the recovery of waste products. Topics include but are not limited to:

- Development of new extraction methods to improve yield and selectivity of processes;
- Chemical-analytical characterization and evaluation of bioactivity of vegetable extracts;
- Optimization of extraction process to drive on-large scale methods toward sustainability;
- Development of green innovative process to obtain the recovery of waste products.

Guest Editors

Dr. Francesca Blasi

Department of Pharmaceutical Science, University of Perugia, 06126 Perugia, Italy

Dr. Lina Cossignani

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
