

Special Issue

Recent Advances in Processing Technologies for Substance Extraction, Separation, and Enrichment

Message from the Guest Editors

This Special Issue on “Recent Advances in Processing Technologies for Substance Extraction, Separation, and Enrichment” seeks high-quality works focusing on the latest advances in extraction technology for the separation, purification, and utilization of various natural and industrial resources and environmental protection. Topics include, but are not limited to:

- Modelling of extraction and separation processes;
- Low-temperature electrochemical processing for purification;
- Green solvents for extraction and enrichment;
- New materials and methods for solid- and liquid-phase extraction;
- Application of extraction techniques for the separation and/or purification of elements and natural products;
- Extraction of natural products;
- Electrochemistry for metals, alloys, and nanostructure production and surface modification;
- Aqueous and sol-gel processing of materials for energy and other applications.

Guest Editors

Dr. Yanlin Zhang

School of Chemistry, University of Melbourne, Parkville 3010, VIC, Australia

Dr. Prashant K. Sarswat

Department of Materials Science and Engineering, University of Utah, Salt Lake City, UT 84112, USA

Deadline for manuscript submissions

closed (30 April 2024)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
