Emulsions and Emulsion Stability Analysis and Application in Chemical, Pharmaceutical and Food Industries

Message from the Guest Editors

Emulsions are of interest in many important practical applications in food, cosmetics, petroleum production, agriculture, chemical, oil and gas, pharmaceutical, and various other process industries. This Special Issue on “Emulsions and Emulsion Stability Analysis and Application in Chemical, Pharmaceutical, and Food Industries” aims to select novel advances in the design, development, and application of emulsion technology.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
