Special Issue

Model of Unconventional Oil and Gas Exploration

Message from the Guest Editors

This Special Issue invites papers that address new scientific advancements to enhance the recovery process of unconventional oil and gas. We especially welcome submissions on the following topics:

- Tight gas extraction;
- Multiple flow mechanisms;
- Energy gas storage in depleted oil and gas reservoirs;
- Enhanced oil/gas recovery;
- Numerical model development;
- Digital core technology;
- Wellbore and drilling mechanics;
- Hydraulic/anhydrous fracturing technology.

We look forward to receiving insightful contributions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
