

## Special Issue

# Advances in Nanomaterials Synthesis and Applications in Electrochemical Processes

### Message from the Guest Editors

The proposed Special Issue on “Advances in Nanomaterials Synthesis and Applications in Electrochemical Processes” mainly aims to widen and strengthen the synthesis of nanostructured materials and their electrochemical applications in order to address the following challenges. This scope of the proposed issue includes, but is not limited to:

- Cutting-edge technology in the synthesis and electrochemical applications of nanostructured materials;
- Fundamental aspects of the electrochemical processes;
- Technical, review, or mini review articles based on nanomaterials/nanostructured composites in the field of electrochemical energy conversion and storage, and environmental applications;
- Explore the new aspects of electrochemical applications of nanomaterials.

### Guest Editors

Prof. Dr. Ramalinga Viswanathan Mangalaraja

Faculty of Engineering and Sciences, Universidad Adolfo Ibáñez (UAI), Santiago, Chile

Dr. Arunachalam Arulraj

Department of Electrical, Faculty of Engineering, Universidad Tecnológica Metropolitana (UTEM), Santiago, Chile

### Deadline for manuscript submissions

closed (30 August 2024)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
