Advanced Wastewater Treatment Processes and Technologies

Message from the Guest Editors

This Special Issue, titled “Advanced Wastewater Treatment Processes and Technologies”, seeks high-quality works focusing on the recent progress in the development of wastewater treatment processes with minimal negative impact on the environment and humanity. Topics include, but are not limited to, the following:

- The implementation of green materials in wastewater treatment processes.
- Optimization of wastewater treatment process.
- Development of the methodologies for the removal of target pollutants.
- Development of novel materials with potential applications in green technologies.
- Studies of treatment by-products, secondary pollution, and toxicology.
- Modelling and simulations.

We look forward to your submissions.
