

Special Issue

Modeling, Simulation and Control in Energy Systems

Message from the Guest Editors

This Special Issue on “Modeling, Simulation and Control in Energy Systems” aims to collect high-quality research studies (including state-of-the art review papers) addressing challenges pertaining to the broad areas of energy production, management, utilization and storage. Topics include, but are not limited to, the following:

- Mathematical programming and control of energy systems;
- Energy efficiency in vehicles, buildings and power stations;
- Renewable energy systems and energy storage;
- Electrochemical and H₂-based systems (batteries, fuel cells and electrolyzers);
- Waste-to-Power and Power-to-X technologies;
- Distributed and off-grid energy systems;
- Complex transport phenomena in energy processes;
- Energy management and optimization;
- Power Quality.

Guest Editors

Dr. Dimitris Ipsakis

School of Production Engineering and Management, Technical University of Crete, 73100 Chania, Greece

Dr. Andreas Yiotis

School of Mineral Resources Engineering, Technical University of Crete, 73100 Chania, Greece

Deadline for manuscript submissions

closed (30 June 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
