

## Special Issue

# Emerging Technologies in Heating, Ventilation, Air Conditioning and Refrigeration (HVAC&R) Systems (Second Volume)

### Message from the Guest Editors

This Special Issue on “Emerging Technologies in Heating, Ventilation, Air Conditioning and Refrigeration (HVAC&R) Systems” aims to collect and report novel technologies and advances in HVAC&R. Topics include, but are not limited to:

- Advanced HVAC&R systems and equipment
- Thermodynamics analysis and energy systems for HVAC&R
- Novel HVAC&R systems and processes
- Indoor environmental quality management
- Experiments and analysis for HVAC&R
- Simulation approaches and new algorithms for HVAC&R
- Novel refrigerants and applications
- Energy efficiency analysis and improvement for HVAC&R
- Intensive review article on the state-of-the-art of HVAC&R

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
