

Special Issue

Advances in Hydrogel Scaffolding of Stem Cells

Message from the Guest Editor

For this Special Issue entitled “Advances in Hydrogel Scaffolding of Stem Cells”, we aim to curate novel advances in the rational development of hydrogel scaffolds to address several longstanding challenges in tissue regeneration. We cordially invite novel reports and topics encompassing (but not limited to) the following areas:

- (Bio)chemical synthesis of hydrogel formulations with novel chemistry and rheology for cell scaffolding
- Design of injectable, shear-thinning hydro-/micro-/nanogels for stem cell delivery
- Advanced biofabrication techniques for in vitro modeling of degenerative diseases/microenvironments using stem cells, embryonic cells, or induced-pluripotent (iPS) cells
- 3D and 4D bioprinting of cell-laden hydrogels and bioinks for in vitro investigations and as prefabricated bioscaffold constructs for preclinical testing
- Cell-laden hydrogels for tissue repair with controlled biodegradation, immune modulation, and cell migration
- Hydrogel-assisted 3D organoid formation for drug testing and disease modeling

Guest Editor

Dr. Shreyas Kuddannaya

Department of Neurology, Miller School of Medicine, University of Miami, Miami, FL 33136, USA

Deadline for manuscript submissions

closed (15 May 2022)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
