

## Special Issue

# Synthesis and Multiple Applications of Functional Nanomaterials

### Message from the Guest Editors

The synthesis and multiple applications of functional nanomaterials represent a dynamic field of scientific and technological research. This area focuses on creating nanoscale materials with unique properties and tailoring them for a wide range of applications. These nanomaterials exhibit exceptional properties due to their size and structure, making them valuable in fields like electronics, medicine, energy, and environmental science. Researchers use various synthesis methods to engineer nanomaterials with specific attributes. Their versatility along with sustainable synthesis methods allows for diverse applications, from more efficient electronic devices to targeted drug delivery in medicine. The development and utilization of functional nanomaterials hold great promise for addressing complex challenges and driving innovation in various sectors. Hence, we cordially extend an invitation to you to contribute your original research to a Special Issue of *Processes* entitled "Synthesis and Diverse Applications of Functional Nanomaterials."

### Guest Editors

Prof. Dr. Sathish Kumar Kamaraj

Dr. Paulraj Arunkumar

Prof. Dr. Mercedes G. López

### Deadline for manuscript submissions

closed (30 May 2024)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
