Special Issue

Synthesis, Application and Structural Analysis of Composite Materials

Message from the Guest Editor

As the guest editor, my goal is to coordinate and promote cutting-edge research in "Synthesis, Application and Structural Analysis of Composite Materials". This Special Issue is aimed at disseminating original studies, critical reviews and experimental work that contribute to the advancement of knowledge in areas such as the fabrication of innovative materials with tailored properties, capable of responding to the specific demands of various industries, such as electronics, biomedicine and renewable energy, thus driving the development of more efficient, sustainable and advanced technologies. The vision is to provide a robust academic platform to experts to share their innovative research and, in turn, facilitate interdisciplinary dialogue between authors and readers from around the world.

Guest Editor

Dr. Caleb Carreño-Gallardo

Advanced Materials Research Center, S.C. (CIMAV) and National Nanotechnology Laboratory, Avenue M. Cervantes 120, Industrial Complex Chihuahua, Chihuahua CP 31136, Chih., Mexico

Deadline for manuscript submissions

31 March 2026

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
