

Special Issue

Chromatographic Techniques in Food Industry Processes

Message from the Guest Editors

This Special Issue explores the critical role of Chromatographic Analysis Techniques in the Food Industry, focusing on advanced methods for identifying and characterizing bioactive compounds in foods and plants. Chromatography provides precise tools for the qualitative and quantitative analysis of these compounds, supporting food safety, traceability, and the development of nutraceuticals and functional foods. In the context of rapid cultural, technological, and climate changes, this issue aims to stimulate dialogue on how chromatographic techniques can enhance food analysis and contribute to healthier food systems.

Guest Editors

Dr. Fouad EL Mansouri

Chemical Engineering Department, Faculty of Sciences and Techniques of Tangier, Abdelmalek Essaadi University, Tangier BP 416, Morocco

Prof. Dr. Jamal Brigui

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
