

## Special Issue

# Extraction, Separation, and Purification of Bioactive Compounds

### Message from the Guest Editors

For this Special Issue on “Extraction, Separation, and Purification of Bioactive Compounds”, we welcome submissions of high-quality work focusing on extraction and purification methods that provide possible solutions to the numerous shortcomings of conventional extraction and purification techniques. This Special Issue will also cover recent advances in the development and application of novel solvents in extraction, as well as innovative extraction and purification techniques. Topics include, but are not limited to, the following:

- the extraction, separation, and purification of bioactive compounds;
- innovative extraction and purification techniques in bioactive compounds;
- the development and application of novel solvents for extraction;
- the optimization of extraction, separation, or purification processes;
- the influence of extraction and purification parameters on extraction yield.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
