

Special Issue

Machine Learning and Chemometrics for Complex Process Analysis and Control

Message from the Guest Editors

The *Processes* Special Issue "Machine Learning and Chemometrics for Complex Process Analysis and Control" is focused on the integration of advanced chemometrics and machine learning to address challenges in complex production and manufacturing processes. With advancements in sensor technology and computational power, industries now generate vast, intricate datasets. This issue highlights innovative methods to analyze, model, and control these processes, enabling better insights and optimization across fields like chemical engineering, pharmaceuticals, food production, and agriculture. We invite original research, reviews, and commentaries on advanced chemometric and machine learning techniques for process analysis and control. Topics include optimization algorithms, model development, and sensor technologies and their applications in agriculture, food science, pharmaceuticals, and biological engineering. This special issue aims to foster collaboration and innovation, driving progress in the understanding and control of complex processes.

Guest Editors

Dr. Huiwen Yu

Department of Chemical Engineering, Massachusetts Institute of Technology, Cambridge, MA 02139, USA

Dr. Mourad Kharbach

Circular Economy/Sustainable Solutions, LAB University of Applied Sciences, Mikkulankatu 19, 15101 Lahti, Finland

Deadline for manuscript submissions

20 October 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
