

Special Issue

Novel Recovery Technologies from Wastewater and Waste

Message from the Guest Editors

This Special issue will focus on new and emerging technologies for recovering resources from wastewater and waste that can reduce environmental impact and promote a more efficient resource use. We welcome submissions on a wide range of topics related to resource recovery technologies, including, but not limited to, adsorption, membrane filtration, electrochemical processes, biotechnology, pyrolysis, and nanotechnology. We are particularly interested in research that provides innovative solutions to the challenges of wastewater treatment and waste management. We encourage authors to submit original research articles, reviews, and perspectives that highlight the latest advances and challenges in the field of resource recovery. All submitted papers will undergo thorough peer review to ensure the highest standards of quality and scientific rigor. We look forward to receiving your contributions and publishing groundbreaking research that will shape the future of resource recovery in the years to come.

Guest Editors

Dr. Miguel Andrés Peluso

Laboratorio UPL (CICPBA-UNLP), M.B. Gonnet, Buenos Aires, Argentina

Dr. María Victoria Gallegos

Centro de Investigación Y Desarrollo en Ciencias Aplicadas, CIC-CONICET-UNLP, La Plata, Argentina

Deadline for manuscript submissions

closed (15 June 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
