Focus on Food Physical Processing Technology

Message from the Guest Editor

This Special Issue, entitled “Focus on Food Physical Processing Technology”, seeks high-quality works focusing on the latest methods, equipment, systems, etc., topics including, but not limited to:

- Food non-thermal physical processing technologies such as ultra-high pressure, ultrasonic, ultraviolet, electromagnetic field, etc.
- Food thermophysical processing technologies such as microwave, infrared, radio frequency, intense pulsed light, etc.
- The design and development of equipment and intelligent control systems for agro-product processing and food manufacturing.
- Other related topics.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
