Special Issue

Emerging Pollutants in the Environment: Sources, Effects, Monitoring and Governance

Message from the Guest Editors

This Special Issue addresses the global challenges posed by emerging pollutants in various environmental compartments, as well as the relevant engineering solutions. Topics include, but are not limited to:

- Sources and toxics of emerging pollutants;
- Environmental transformation processes;
- Risk evaluation and management;
- Biomass-based material for treating emerging pollutants;
- Advanced oxidation technology;
- Advanced reduction technology;
- Anaerobic fermentation;
- Recycling of emerging pollutants;
- The challenges and future development.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
