

Special Issue

Simulation, Modeling, and Decision-Making Processes in Manufacturing Systems and Industrial Engineering

Message from the Guest Editors

In this era of relentless technological advancement, characterized by the rapid emergence of Industry 4.0, smart factories, and the relentless pursuit of excellence in industrial processes, the marriage of simulation, modeling, and decision-making has taken center stage. These intertwined disciplines not only illuminate the path toward innovation, but also serve as indispensable tools for understanding, optimizing, and reimagining the complex fabric of manufacturing systems and industrial engineering. The Special Issue serves as a dynamic platform for researchers, scholars, and practitioners to explore the cutting-edge developments at this critical intersection. This Special Issue delves into the heart of contemporary manufacturing and industrial engineering, where simulation techniques, advanced modeling approaches, and astute decision-making strategies converge to address the multifaceted challenges of our times. It provides a comprehensive platform for contributions that illuminate emerging trends, novel methodologies, and innovative applications in this dynamic and ever-evolving field.

Guest Editors

Prof. Dr. Chia-Nan Wang

Dr. Nhat Luong Nhieu

Dr. Phan Van-Thanh

Dr. Hector Tibo

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
