Special Issue

Mathematical Modeling of Drying Kinetics in Food and Biomass Processing

Message from the Guest Editors

This Special Issue titled "Mathematical Modeling of Drying Kinetics in Food and Biomass Processing" invites high-quality research articles on the mathematical modeling of various drying methods, such as oven drying, solar drying, infrared drying, radiofrequency drying, microwave drying, ohmic heating, high-electric-field drying or similar drying systems for a variety of food and biomass.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:
CiteScore - Q2 (Chemical Engineering (miscellaneous))
