

Special Issue

Advanced Technologies for the Production, Processing, and Extraction of Biorefinery Products from Microalgae

Message from the Guest Editors

From advanced photobioreactors and genetic engineering to novel extraction methods and bioconversion processes, this Special Issue on "Advanced Technologies for the Production, Processing, and Extraction of Biorefinery Products from Microalgae" provides a comprehensive understanding of the state-of-the-art strategies employed to harness the full potential of microalgae in biorefineries. Topics include, but are not limited to, the following:

- Innovative Cultivation Techniques for Microalgae;
- Advanced microalgae harvesting and Dewatering Methods;
- Extraction of Biorefinery Products from Microalgae; Optimization of Microalgae Growth Conditions and Nutrient Supply;
- Regulatory and Market Challenges in Algal Biorefinery Products;
- Applications of Machine Learning and AI in Algal Biotechnology.

Guest Editors

Dr. Motasem Alazaiza

Department of Civil and Environmental Engineering, College of Engineering (COE), Ash Sharqiyah University (ASU), Ibra 400, Oman

Dr. Salem S. Abu Amr

Department of Health, Safety and Environmental Management, International College of Engineering and Management, Muscat, Oman

Deadline for manuscript submissions

closed (20 July 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
