

## Special Issue

# Research on Bioactive Compounds from Food Processing Products

### Message from the Guest Editors

This Special Issue, “Research on Bioactive Compounds from Fruit and Vegetable Processing Products”, aims to gather research studies that address the improvement of industrial processes for the extraction of bioactive compounds; the valorization of these compounds through by-products or wastes with different applications; the improvement of their stability, bioavailability and bioaccessibility; the development of analytical methods that simplify their determination in raw products or processed foods; and finally their major role in health.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
