Special Issue

Technological Advancements in Nanomaterials Synthesis and Application

Message from the Guest Editors

This Special Issue on "Technological Advancements in Nanomaterials' Synthesis and Application" mainly aims to widen and strengthen nanomaterials' application and their synthesis methods to address the following challenges. This Special Issue includes, but is not limited to:

- Key new technology in the synthesis and application of nanomaterials;
- Synthesis and application of composite nanomaterials;
- Technical or review or mini review articles based on nanomaterials/nanostructured composites in the field of energy conversion and storage, and environmental applications;
- Any new concepts or new ideas on the development of nanomaterials;
- Flexible materials based on nanostructured materials are also welcome.

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
