

Special Issue

Neural Computation and Applications for Sustainable Energy Systems

Message from the Guest Editors

In this Special Issue, all the latest innovative methods based on neural networks and similar intelligent methods are welcomed. Possible submissions are not limited to these topics, and any other proposals in the field related to intelligent methods of sustainable energy systems are welcome too. Potential topics consist of but are not limited to the following:

- Applications of intelligent methods to smart grids;
- Energy management in photovoltaic plants that makes use of neural predictions;
- Intelligent energy management in wind farms;
- Optimal energy dispatch management using neural network (intelligent) predictors;
- Optimal management of various renewable energy sources;
- Cloud-based energy management in intelligent smart grids.

Guest Editors

Dr. Giacomo Capizzi

Associate Professor, Department of Electrical, Electronics and Informatics Engineering, University of Catania, Viale Andrea Doria 6, 95125 Catania, Italy

Dr. Grazia Lo Sciuto

UNICT, Department of Electrical, Electronics and Informatics Engineering (DIEEI), University of Catania, 95125 Catania, Italy

Deadline for manuscript submissions

closed (31 July 2020)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
