

Special Issue

Synthesis and Application of Novel Nanocatalysts

Message from the Guest Editors

All experimental works falling within the scope of this Special Issue, including original research papers, short communications, review articles, and perspective articles, are invited for submission. This Special Issue on the “Synthesis and Application of Novel Nanocatalysts” aims to curate novel advances in the development and application of nanocatalysts to address longstanding challenges in heterogeneous catalysis. Topics include, but are not limited to:

- Development of new nanocatalysts and applications for organic reactions;
- Developments in hybrid metal nanocatalysts for organic reactions;
- Development of heterogeneous catalysis;
- Fabrications and applications of nanocatalysts.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
