Special Issue

Modelling and Optimizing Process in Industry 4.0

Message from the Guest Editors

In conclusion, Industry 4.0 brings with it a range of advanced technologies that have the potential to radically transform industrial processes. Publishing articles on this topic is essential to share the accumulated knowledge and experiences, thus contributing to the development and implementation of these technologies in various industries. Topical articles:

- Studying, optimizing, and modelling processes;
- Studying and optimizing the functioning of different types of equipment;
- Applying advanced technologies within various processes;
- Automated production processes;
- Efficiency and competitiveness in industrial processes.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
