Special Issue

Analysis, Determination and Pharmacokinetics of Active Substances in Drug Development

Message from the Guest Editor

This Special Issue entitled "Analysis, Determination and Pharmacokinetics of Active Substances in Drug Development" aims to collect research related to the analysis and determination of active substances in drug development, as well as their pharmacokinetic analysis. The topics include but are not limited to the following:

- The validation of analytical methods for active substances and metabolites;
- The analysis and determination of active substances and metabolites;
- The pharmacokinetic analysis of active substances and metabolites:
- The application of analytical methods and pharmacokinetic analysis in drug development;
- Mechanistic studies associated with the above methodologies;
- In silico studies associated with the above methodologies.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
