

## Special Issue

# Processes of Pollution Control and Resource Utilization

### Message from the Guest Editors

Material migration, material transformation, energy conversion, and energy transmission are all basic processes of pollution control and resource utilization. By regulating certain key steps in these processes, researchers can break through bottlenecks, improve efficiency, and optimize reaction systems. With the rapid development of pollution control technology, various new reactors, materials, and concepts are springing up. Although the technologies are varied, the underlying principles and bottlenecks may be familiar. Exploring the chemical, biological, and interface processes behind these new avenues has important guiding significance for the optimization and development of similar technologies. This Special Issue, "Processes of Pollution Control and Resource Utilization", seeks high-quality works focusing on the latest novel advances in the research of chemical, biological, and interface processes of pollution control and resource utilization.

### Guest Editors

Prof. Dr. Wei Li

Department of Chemical and Biological Engineering, Zhejiang University, No. 38 Zheda Rd., Hangzhou 310013, China

Dr. Yinfeng Xia

College of Water Conservancy & Environmental Engineering, Zhejiang University of Water Resources and Electric Power, Hangzhou 310018, China

### Deadline for manuscript submissions

closed (20 September 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
