

Special Issue

Power Electronic for Photovoltaic Systems

Message from the Guest Editor

Research in this field investigates several topics, including but not limited to power electronic technologies, DC–DC converter technologies, DC–AC inverter technologies, photovoltaic systems, smart grid, saving-energy illustration, distributed energy systems, energy storage systems, energy transmission systems, electric vehicles, and renewable energy applications. Topics of interest for publication include but are not limited to the following:

- Innovative power converter topologies;
- Power electronic for photovoltaic systems;
- Power converters suitable for wireless power transfer;
- Power electronics for electric vehicles;
- Switching converters in smart grid applications and energy transmission systems;
- Power converters for energy storage systems;
- Power converters for e-mobility;
- Power electronic for renewable energy conversion;
- Power converters for LED driving circuits.

Guest Editor

Prof. Dr. Yu-En Wu

Department of Electronic Engineering, National Kaohsiung University of Science and Technology, Kaohsiung 824, Taiwan

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
