Processes in Urban Farming and Food Security

Message from the Guest Editor

By 2050, the world will need to produce 70% more food to feed about 2 billion more people. The COVID-19 pandemic which caused a brief period of panic buying and stocking throughout the world also underscores the need for food security. One way of achieving food security is through farming near or within major cities—a concept termed urban farming. Given land, water, energy, labor, and climate change constraints in cities, new and innovative ways must emerge for urban farming. In this Special Issue on “Processes in Urban Farming and Food Security”, we aim to curate manuscripts on topics that include but are not limited to the establishment of food security by urban farming using new and innovative ways tackling the constraints of land, water, energy, labor, and climate change.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
